

The Rifle Fire Protection District

The Rifle Fire Protection District is hosting this training conference. The dates and the times are to appeal to the work schedules of the volunteer

The seminar, and training received, will stress the practical applications of fire investigation so that the student can build the confidence and practical knowledge to conduct a systematic, safe, thorough, and effective fire scene investigation

The Rifle Fire Protection District, Station 1 is the location for this training. It is located at 1850 Railroad Ave. in Rifle Colorado.

The class is designed to appeal to the schedules of volunteer firefighters and will start at 6:00 pm on Friday, September 5 and go until 10:00 pm. The Saturday and Sunday presentation will begin at 8:00 am and go all day.

Students are encouraged to bring a personal copy of NFPA 921: Guide for Fire and Explosion Investigations. As the class it taught from this text.

Your Instructors

Kevin L. Hammons, IAAI-CFI®

Kevin Hammons, with IRIS Fire, is a retired Fire Marshal from the Aurora, Colorado Fire Department. Kevin has a MA in Education and a BS in Organizational Management. He holds certifications as a Firefighter, Paramedic, Fitness Trainer, Fire and Explosion Investigator, Hazardous Materials Technician, and Vocational Educator. Kevin has instructed for schools, colleges, fire departments, police departments, government agencies, and private businesses.

Robert K. Toth, IAAI-CFI®

Robert Toth's professional career starts with nearly 21 years in the fire service; the last 10 years of that career included law enforcement experience conducting fire investigations in both the public and private sector. Retiring from the fire service in 2002, he started IRIS Fire Investigations, Inc. and now conducts origin and cause investigations in Colorado and surrounding States.

Kevin and Robert are sought after for their lectures and presentations on fire investigations, NFPA 921, interviewing, internet technology, and digital photography training; to name a few. They have presented various topics to public agencies and private enterprise across the United States, in Canada, Hong Kong, Malaysia, Australia and South Africa.

The course is taught from the 2008 (lastest) edition of NFPA 921: Guide for Fire and Explosion Investigations.
